

Weave a Curved Seat Bench
with Walt Turpening

Bench Height Measurements

Lower Leg Length _____ <i>from back of knee to floor when standing in usual weaving footwear</i>	+	Lower Torso Seat Height	= _____
Treadle Height _____ <i>at ball of foot, top of treadle to floor</i>			

Breast Beam Height _____ <i>from top of beam to floor</i>		Upper Torso Seat Height	= _____
Elbow Height _____ <i>from bottom of elbow to seat</i>	-		= _____

As shown, for a Weaver's Bench. For a Spinner's Bench the Treadle Height is where the heel rests on the spinning wheel treadle. For a Dressing Bench only the Lower Leg Length is needed.
